UniCore — ER Diagram

Main tables and relationships of the UniCore database (code/database/schema.sql). Full 47-table model: unicore_er_diagram.pdf

Identity & Access · Academic · Examination · Hostel · Library

Role (auth_roles)
- id PK
- code UK
- name
- scope_type

granted as (1 — N)

User Role (auth_user_roles)
- id PK
- user_id FK
- role_id FK
- scope_id

has (N — 1)

User (auth_users)
- id PK
- email
- first_name
- last_name
- status

is (1 — N)

Faculty (academic_faculty)
- id PK
- user_id FK
- department_id FK
- employee_no UK
- designation

employs (N — 1)

Department (academic_departments)
- id PK
- code UK
- name
- head_faculty_id FK

owns (1 — N)

offers (1 — N)

Program (academic_programs)
- id PK
- department_id FK
- code UK
- name
- degree_type

Course (academic_courses)
- id PK
- department_id FK
- course_code UK
- title
- credits

borrows (N — 1)

pays (N — 1)

is (1 — N)

enrolls (N — 1)

teaches (N — 1)

offered as (N — 1)

Book Issue (library_issues)
- id PK
- copy_id FK
- member_user_id FK
- issued_at
- due_at
- returned_at

charged (1 — N)

Fine (library_fines)
- id PK
- issue_id FK
- member_user_id FK
- amount
- settled_at

Student (academic_students)
- id PK
- user_id FK
- program_id FK
- department_id FK
- student_no UK
- current_semester

makes (1 — N)

Enrollment (academic_enrollments)
- id PK
- student_id FK
- course_offering_id FK
- enrollment_status

has (N — 1)

Course Offering (academic_course_offerings)
- id PK
- course_id FK
- semester_id FK
- primary_faculty_id FK
- section_code
- capacity

runs (N — 1)

Semester (academic_semesters)
- id PK
- code UK
- academic_year
- start_date
- end_date

issued as (N — 1)

Book Copy (library_book_copies)
- id PK
- book_id FK
- barcode UK
- status

has copies (N — 1)

Book (library_books)
- id PK
- isbn UK
- title
- author

marked in (1 — N)

Attendance (academic_attendance)
- id PK
- student_id FK
- course_offering_id FK
- date
- status

has (1 — N)

graded in (1 — N)

Final Result (exam_final_results)
- id PK
- student_id FK
- course_offering_id FK
- total_marks
- grade_code

assessed by (1 — N)

Exam (exam_exams)
- id PK
- course_offering_id FK
- name
- max_marks
- scheduled_at

records (1 — N)

Marks (exam_marks)
- exam_id PK FK
- student_id PK FK
- marks_obtained
- graded_by FK

lives in (N — 1)

receives (N — 1)

scores (N — 1)

Allocation (hostel_allocations)
- id PK
- student_id FK
- bed_id FK
- allocated_from
- status

assigned in (N — 1)

Bed (hostel_beds)
- id PK
- room_id FK
- bed_label
- status

contains (N — 1)

Room (hostel_rooms)
- id PK
- block_id FK
- room_no
- capacity

contains (N — 1)

Block (hostel_blocks)
- id PK
- hostel_id FK
- name
- floor_count

has (N — 1)

Hostel (hostel_hostels)
- id PK
- code UK
- name
- gender_type
- warden_user_id FK

PK Primary key · FK Foreign key · UK Unique · 1 —— N one-to-many relationship (the N side holds the foreign key)

Actor references to User (graded_by, warden_user_id, …) are shown as FK fields only.
